

Bhaskarjyoti Bhattacharyya

Nalbari, Assam, India | +91 6003393896 | bbhatta431@gmail.com | GitHub | Portfolio

Profile

Computer Science Engineering student focused on backend and full-stack web development. Hands-on experience building project-based applications using Python, FastAPI, PostgreSQL/MySQL, REST APIs, React.js, Next.js, Node.js, Express.js, Tailwind CSS, and GitHub. Interested in Backend Developer, Python/FastAPI Developer, and Full Stack Web Development internship roles.

Education

B.Tech in Computer Science and Engineering

2022 – 2026

Jorhat Engineering College, Assam Science and Technology University

CGPA: **7.88/10** up to 7th semester

Academic Achievement: GATE CSE Qualified

Technical Skills

Backend: Python, FastAPI, Flask, Node.js, Express.js, REST APIs, JWT Authentication, API Integration

Database: PostgreSQL, MySQL, SQL, Drizzle ORM, Database Integration

Frontend: HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS, Responsive Design

Tools: Git, GitHub, VS Code, Postman, Render, Docker Basics

Core: Problem Solving, Debugging, Logical Thinking, Communication, Quick Learning

Experience

Research Intern

Jun 2024 – Jul 2024

Indian Institute of Information Technology Guwahati, Assam

- Analyzed induced forests in Gabriel graphs as part of a graph theory research internship.
- Worked on literature study, mathematical reasoning, structured problem solving, and technical documentation.

Web Development Intern

Jun 2025 – Jun 2025

Prodigy InfoTech

- Completed a 1-month Web Development internship involving frontend development and GitHub-based task submission.
- Practiced HTML, CSS, JavaScript, responsive design, debugging, project structure, and deadline-based task completion.

Projects

Hybrid Decentralized Voting System

React, FastAPI, PostgreSQL, Solidity, Web3.js

- Built an academic voting system combining React frontend, FastAPI backend, PostgreSQL database, and Ethereum smart contract logic.
- Implemented backend API flow, role-based login, database connectivity, candidate handling, and voting workflow.
- Integrated MetaMask, Ganache, Web3.js, and Solidity smart contracts for blockchain-based vote recording.

GATE CSE Performance OS

Next.js, PostgreSQL, Drizzle ORM, Tailwind CSS

- Built a local full-stack study tracking system for GATE CSE preparation with subject, topic, study log, and review workflows.
- Designed database-backed progress tracking, planning, performance logging, dashboard cards, and clean UI views.

Smart Pest Detection System

Python, YOLOv8, Flask, OpenCV

- Built a pest detection prototype using YOLOv8 classification with Flask and OpenCV-based live camera streaming.
- Added confidence-based filtering and real-time detection display through a web interface.

Certifications and Additional Details

- Web Development Internship Certificate - Prodigy InfoTech, CIN: PIT/JUN25/04987, issued on 06/07/2025.
- Interested Roles: Backend Developer Intern, FastAPI Developer Intern, Python Developer Intern, Full Stack Developer Intern.
- Availability: Remote / Part-time / Flexible.
